

Bass Drum Mallets

Corresponding all genres of musics, and musical instruments. PLAYWOOD Bass Drum Mallets are examined widely and manufactured.

BD-10W ~ 30W, BD-10 ~ 50

These are German type mallets that advised by Mr Hans-Dieter Lembens (Former Berlin Philharmonic Orchestra Percussionist) and manufactured. These mallets are for rich tones, thick and strong sounds.

BD-10M ~ 40M

These Bass Drum Mallets planned and designed from advise of Mr Tomoyuki Okada. Good for wide genres from wind music to symphony.

BD-10H ~ 40H

Good mallets for clear attack and wrapped soft sounds.

BD-10K ~ 40K

Advised by Ms Keiko Otsuka (Former Vienna Radio Symphony Orchestra Percussionist). Manufactured from round wood core, head is small but wholly massive, so creating good swing.

BD-10C ~ 40C

Mallets for light and softer sounds.

"Chikufu" Shaft, Compressed cork core, realizing close feeling of BD-PRO series at reasonable price.

BD-10PRO ~ 50PRO

Carefully selected Bamboo shaft, German style Bass Drum Mallets for professional players. In comparison with laminated bamboo shaft, more smoothly whole weight is absorbed to mallet heads, creating demanded volume, touch and fine tones, also for Roll, because of good balance, a more comfortable touch is possible.

BD-10F ~ BD-50F

Designed for playing instruments with "Dry Sounds". Piled-up Flannel Core (30F ~ 50F) and at tip pressed with a screw.

Hardness of core is adjustable by tightening a screw (Patent Pending)
